

The Swedish Institute Management Program

The Swedish Institute Management Program aims to bring together individuals of remarkable accomplishments in their mid-career. We strive to challenge their approaches, reinforce their professional skills, deepen their cross-cultural perspectives and unite them in a long-lasting and active network. The program is designed to make the most of common strengths, future potentials and the rapid growth that the participating countries are experiencing – with corporate social responsibility as the overall theme.

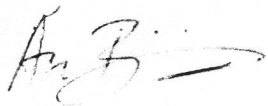

The core of the curriculum constitutes advanced problem-solving within global corporate business projects; seminars with highly qualified speakers; meetings with prominent figures in the commercial, political and cultural sectors.

Once the program has finished, the participants become part of a long-term alumni network with follow-up activities on a national-, northern European- and global level.

The Swedish Institute Management Program covers the following topics:

- Leadership
- Sustainability and transparency in business
- Innovation and Growth
- How to manage cross-cultural groups and differences
- Global trends: Political and Economical

Within the program **Uliana Pysmenna** has successfully completed business assignment at VINNOVA working with "Analysis of the VINNOVA's VinnVäxt program regarding Ukrainian reality and a discussion of its value within the context of the latest Ukrainian Innovation Doctrine".

SI.
Swedish Institute

The Swedish Institute (SI) is a public agency that promotes interest in Sweden abroad. SI seeks to establish cooperation and lasting relations with other countries through strategic communication and cultural, educational and scientific exchanges. Relationships and exchanges contribute

to development both in Sweden and in our collaborative partners around the world. Through increased contacts and new networks, knowledge and innovative ideas can be shared and applied in the future to all areas, not least to trade, culture and politics.
