

This is to certify that

VALERIY TSAPLIN

participated in and completed the

**REGIONAL TRAINING COURSE ON
DEVELOPMENT AND EVALUATION OF ALTERNATIVE
ENERGY STRATEGIES IN SUPPORT OF SUSTAINABLE
DEVELOPMENT USING IAEA'S NEW ASSESSMENT TOOL
MESSAGE**

held in
Pitesti, Romania
from 4 to 27 March 2002

The training course was organized by the International Atomic Energy Agency (IAEA) in co-operation with the Government of Romania through its Ministry of Education and Research and the National Atomic Energy Agency, within the framework of the IAEA Regional Technical Co-operation Project RER/0/019.

The training course comprised specialized lectures, group discussions and practical work sessions on the following topics:

- Energy sources and electricity generation issues in the context of sustainable development;
- Energy/electricity scenarios and their economic and environmental consequences;
- Methodology of IAEA's assessment tool MESSAGE;
- Training in the application of MESSAGE model through developing country-specific case studies on sustainable energy development.
